

Solid Waste Shredders

Our shredders are built to last, with a SIEMENS motor and Schneider components utilized our range of waste shredders can cope with whatever material you wish to shred. Add other parts to make it a shredding line and you can remove ferrous and non ferrous metals, the blades material is Dillinger brand (From Germany) they shred by size and even have various loading/unloading options to suit your requirements. Using German made blades, that are easily replaceable and in stock, your machine will be work horse for your business. See table for sizes and throughput.

Technical Specification

Model	MSB-11	MSB-22	MSB-30	MSB-37	MSB-60	MSB-74	MSB-110
Motor Power	11KW	22KW	30KW	37KW	60KW	74KW	110KW
Cutting Chamber	400x300mm	700x500mm	78x580mm	780x630mm	1000x930mm	1500x20mm	2000x500mm
Blades Width	25/30	30/35	30/35	30/35	40/50	50	70
Capacity	1t/h	2t/h	2.5t/h	3t/h	5t/h	10t/h	17t/h
Dimension	2200x950 x1800mm	2300x1300 x1800mm	3000x1500 x2000mm	3000x1700 x2000mm	3100x2100 x2000mm	5100x2300 x2800mm	6000x2300 x3300mm
Weight	2.2t	5t	6t	7t	8t	15t	20t
